

KNOW THE FUTURE. THEN CHANGE IT.®

The RxAnte end-to-end medication adherence solution for **CMS Star Ratings**

PREDICTIVE ANALYTICS

The proprietary RxAnte predictive analytics engine performs rapid analysis of member-level data to determine in near real-time members who are **at risk of becoming non-adherent** and who are most likely to be **receptive to an intervention**. The intersection of these data is what drives your optimized intervention strategy.
